3 PREPARE FOR THE UNEXPECTED

Everyone should have an emergency fund. Many financial experts recommend having liquid assets sufficient to cover at least three to six months of expenses. These assets can be in cash, a savings account, a money market fund, or other assets that can be accessed quickly. Use the following formulas to determine an adequate emergency fund balance in the event of an income need:

Monthly Expenses: \$ _____ X 3 months = \$ _____

Monthly Expenses: \$ _____ X 6 months = \$ _____

Current Emergency Fund Balance: \$ _____

4 REBALANCE INVESTMENTS

Big moves in equity markets or changes in interest rates can have a meaningful impact on your asset allocation. Also, consider whether you may need exposure to new asset classes, such as commodities or alternative investments.

The ability to deduct a Traditional IRA contribution is dependent on your level of income and whether you or your spouse are covered by an employer-sponsored retirement plan at work. Your ability to make a Roth IRA contribution is also dependent on your level of income. Traditional IRA and Roth IRA contributions can be made up until the individual tax filing deadline without extensions (April 15).

9 PLAN FOR RMDs

Planning for your required minimum distributions (RMDs) can help ensure you withdraw them in a timely manner and avoid penalties. Planning to take your first RMD is especially important as the date the withdrawal must occur may vary by the type of retirement plan you own:

Traditional IRAs, SEP IRAs, SIMPLE IRAs: You must take your first RMD no later than April 1st following the year you attain age 70½. Every year thereafter, the RMD must be withdrawn by December 31st each year.

Employer-Sponsored Qualified Plans: If you work past age 70½, the first RMD must be withdrawn by April 1st following the year you retire.* If you do not work past age 70½, the first RMD must be taken by April 1st following the year you attain age 70½. After you satisfy your first RMD, your RMD going forward will be due by December 31st each year.

If you do not need your RMD income and are charitably inclined, consider a Qualified Charitable Distribution (QCD). QCDs allow you to send a distribution from certain IRA accounts directly to charity. The QCD will count toward your RMD for the year, but will not be included in your taxable income. Currently QCDs are limited to \$100,000 per taxpayer per tax year.

If you are turning age 70½ this year, have you arranged to take your first RMD? YES NO

If you are over age 70½, have you taken or arranged to take your RMD for the current year? YES NO

Are your RMDs being used for necessary living expenses? YES NO

Are you interested in giving your RMD to charity? YES NO

*Other rules may apply. Check with your plan administrator for more details.

Health Insurance			
Long-Term Care Insurance

Gifts of assets can be an effective way to reduce your taxable estate as well as give your beneficiaries immediate enjoyment of those assets. In 2017, individuals can gift up to \$14,000 per person per year without any gift or estate tax concerns. (Spouses can combine this amount and gift up to \$28,000 per person per year.)

If you are charitably inclined, making gifts to charitable organizations during your lifetime may also provide a current income tax deduction. Any eligible deduction is dependent on your income and the nature of the organization or type of charity.
